Max. opening speed	200 mm/second	
Max. door height	2300-3000 mm	
Bottom base material	Metal	
Drive mechanism	Belt / Chain	
Frequency	433MHz / 868MHz	
Max. door area	7m <sup>2</sup>	11m <sup>2</sup>
Max. door weight	90kg	140kg
Built-in WiFi	Included	
Built-in safety receiver	Included	

## Mechanical technology

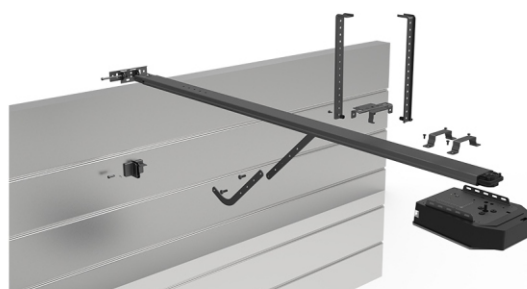

### ■ Modular design

- Each module is easy to disassemble and can be quickly replaced and repaired without removing the motor.

### ■ Convenient installation

- Uniform European screw design, installers only need one screw gun, improving installation efficiency.

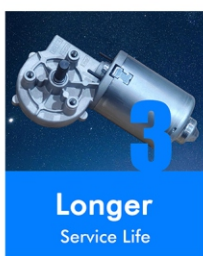

### ■ New motor: 2071A

- Powerful and quiet
- Faster speed: 200 mm/second
- Longer service life

### ■ Battery backup

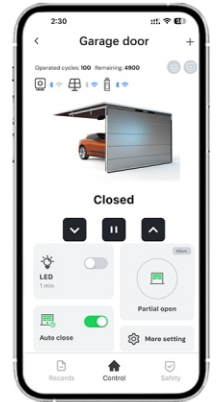

- Optional, no installation and wiring required.

### Built-in WiFi technology

- Linked to the F-linX app, you can control your garage doors anywhere by phone.

### Multi-frequency technology

- Wireless communication using multi-frequency technology between MULTI-FG and wireless safety accessories.  
- Allows users to track information about garage doors and wireless safety system through the F-linX app Safety Center.

### Optional safety devices:

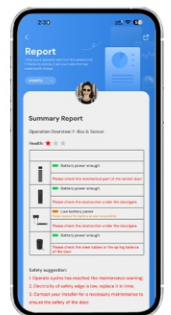

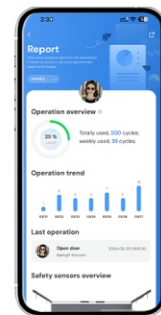

Wireless wicket door transmitter

Wireless photo beam

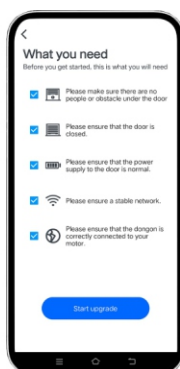

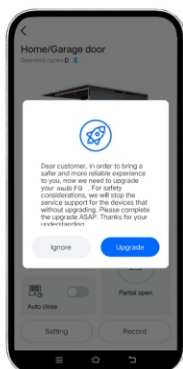

Wireless E-lock

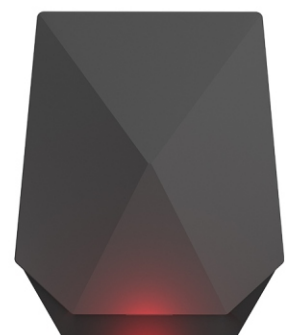

### OTA technology

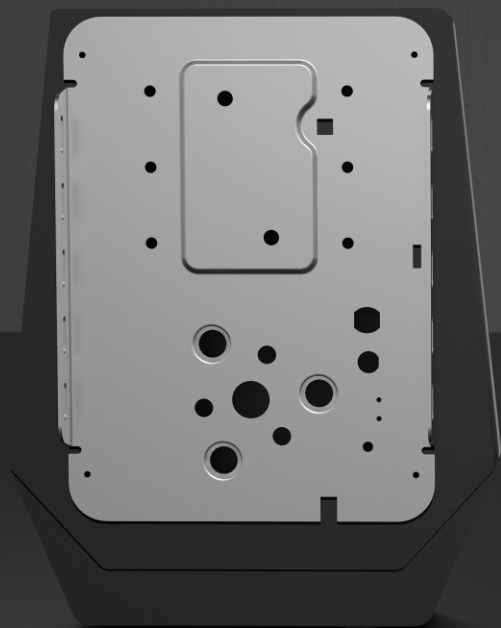

- Fast bluetooth wireless program upgrade

### Two-color status indicator

- Redefine MULTI-FG start up, door opening, door closing, warning and other status indicators.
